Re: [HUONG NOI COMPANY] – INTRODUCING A NEW PROJECT

Dear Ms. Binh,

As your work specializes in the problem of solving communication skills, healing and motivation for minorities in Society. Therefore, Huong Noi Company is very pleased to have you as a potential customer of a new product in our company. Our new project, Tea shop for introverts, is designed with the aim of encouraging inclusion for introverts, giving them a place to share, confide and thereby regain their spirits as well as integration.

Our company has been in the beverage industry for nearly 5 years. With our existing reputation and awards, we want to spread the value to the introverted community - a community that makes up a sizable number of people in today's society. The product that our company can offer you will exceed your expectations. For introverts: They can find a place to share their feelings, become more open, more confident. For ordinary people: Our shop can be seen as a quiet space to study, work and spread good values to others. Smartphone is not allowed while using our service at the shop, people will break the distance and be more open, easier to integrate.

I would be happy to meet you in person and discuss the project "Tea Shop for Introverts" in more detail. We would like to schedule a meeting with you so that we can discuss in more detail the benefits of working with our company and using our products. You can also contact us by email or by phone using the information listed under our company logo. Thank you for taking the time to read this letter in its entirety.

Best regards,

**Bui Ngoc Bao Tran**
**Co – founder of Huong Noi Company**
