EXCUTIVE SUMMARY

A bowl of "Che"

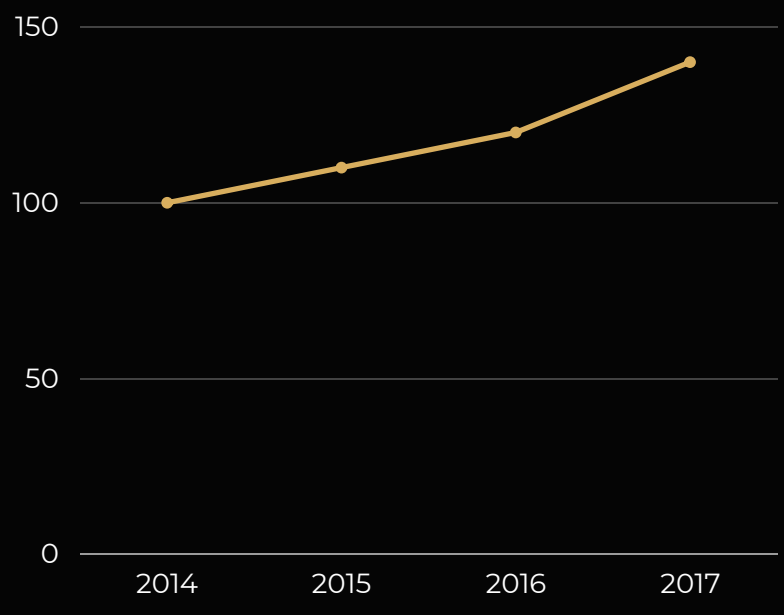

As society develops, people become more active and open in all activities. But, introverts lose their place and are always withdrawn, and afraid to communicate. They are afraid of relationships but it seems that everywhere is trendy, bustling, busy, and noisy.

Understanding that Huong Noi company launched a chain of tea shops with the aim of encouraging integration for introverts, giving them a place to share, confide and thereby regain their confidence as well as integrate with people.

BACKGROUND

Che and beverage is everyone's favorite food and drinks, not only young people but also adults (35 years and older) also love this dish.

This is a delicious, nutritious and cheap dessert from the past to the present.

Graph of the number of beverage users in Vietnam from 2014 to 2017

According to the chart, we can see, the number of consumers of beverage products is increasing. So our project was established to complement and create new experiences for users, especially introverts.
